SOS-Torture/Burundi was initiated with the aim of informing national and international opinion on serious human rights violations under way in Burundi through monitoring reports, particularly on torture, arbitrary arrests, forced disappearances, sexual violence and summary executions.

This initiative to provide information on the realities of the country followed the carnage of some 100 people killed on 11 and 12 December 2015 by the police and military officers under the pretext of pursuing rebels who had just attacked military camps on the outskirts of the capital city.

The affected zones are said to be contesting President Nkurunziza's third term of office, namely Musaga, Mutakura, Cibitoke, Nyakabiga and Jabe, the last two being located in the centre of Bujumbura City Hall.
